

Every screen, *on Lane templates.*

These are mid-fidelity wireframes for all three apps: 10 common screens, 21 customer frames, 10 mechanic frames and 7 admin frames. Grey shows structure, the amber gradient marks the one primary action, and colour always means a booking status. Each frame names its template and key components, so every member builds the same screen the same way.

How to read a frame

- **ID:** C = common, U = customer, M = mechanic, A = admin
- **Template:** one of the 6 in PLAN \$6.13
- Grey bars = real text/data goes here
- Dashed boxes = image or illustration slot
- **Maps are still pictures** of real Ahmedabad streets. Rendered Uber-style from real OpenStreetMap vector data with the real driving route. In the built apps, maps are the **live Ola Maps SDK** (real streets, GPS, routing, moving mechanic) in the same Lane map style

Buttons (ThreeUI)

WorkingSOS onlyEnded

Rules to keep

- One primary button per screen, in the bottom dock
- Critical buttons 64 dp; everything ≥ 48 dp
- Every error / empty state has an action
- Build in Day first, then check Night / Glare / Saver

Common screens

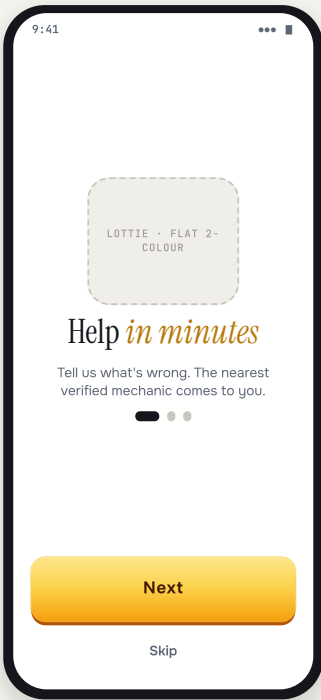

BUILT IN EACH APP
10 FRAMES · 360×800 · DAY PALETTE UNLESS NOTED

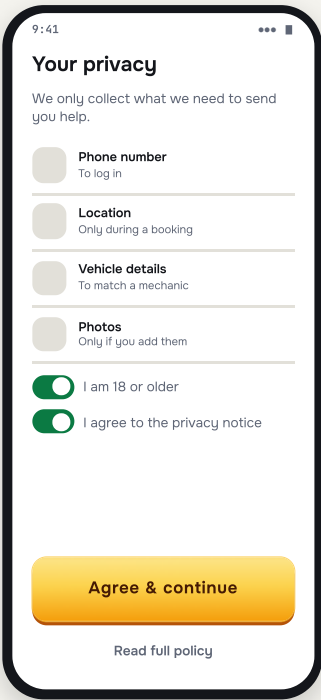

C1
Splash
LANESTATUSSCAFFOLD · 3D B6
ThreeUI horizon image (static), logo, auto-advance after checks (force update, consent).

C2
Language
LANEFLOWSCAFFOLD
Each language shown in its own script. Changeable later in settings.

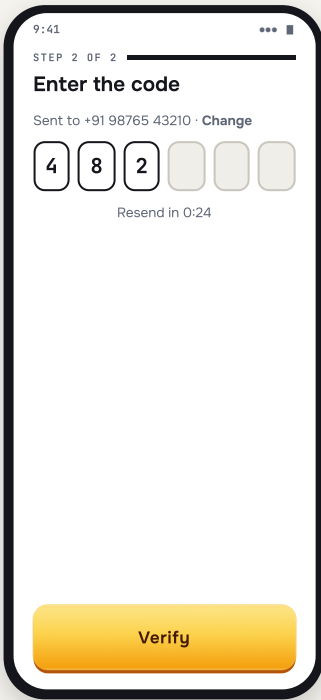

C3
Onboarding (1 of 3)
LANESTATUSSCAFFOLD
3 slides: help fast · live tracking · safe & verified.

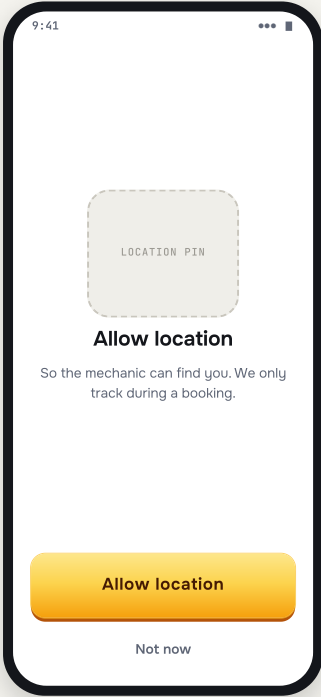

C4
Privacy & consent
LANEFORMSCAFFOLD
DPDP notice in en/hi/gu. Save consent.version + time.

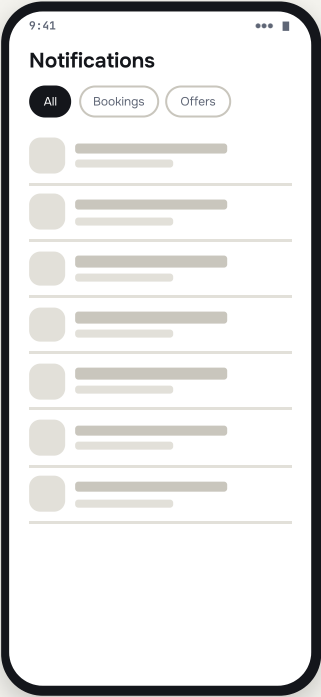

C5
Phone login
LANEFLOWSCAFFOLD
India numbers only (SMS region policy). App Check on.

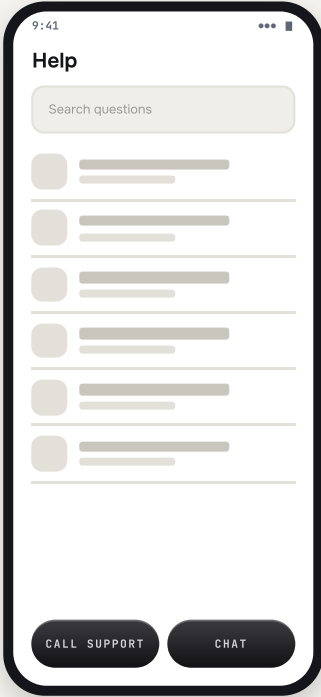

C6
Enter OTP
LANEFLOWSCAFFOLD
Auto-fill via SMS Retriever (no SMS permission).

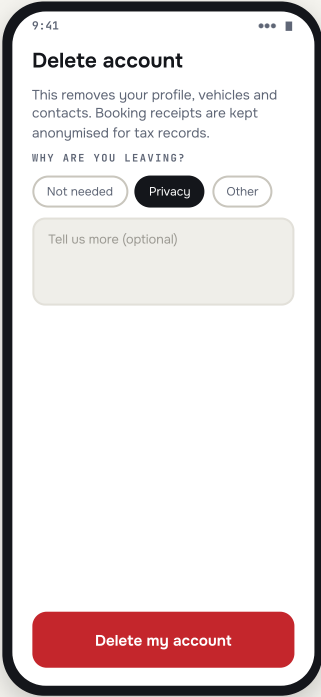

C7
Permission explainer
LANESTATUSSCAFFOLD
Shown BEFORE each system prompt (Play policy). Same for camera, notifications.

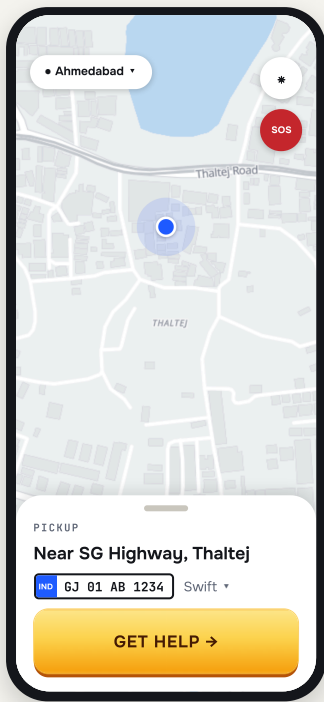

C8
Notifications
LANELISTSCAFFOLD
From inbox/{uid}/items. Tap opens the booking.

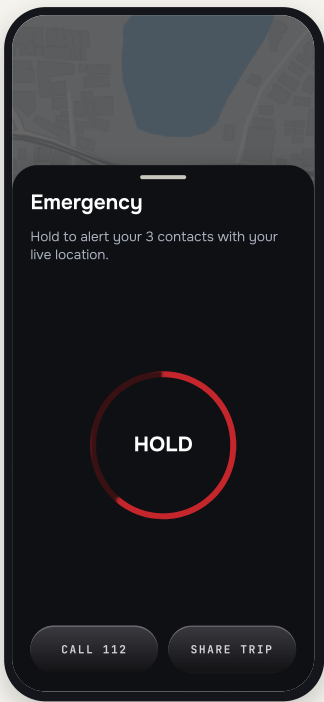

C9
Help & FAQ
LANELISTSCAFFOLD
Grievance contact (DPDP) at the bottom.

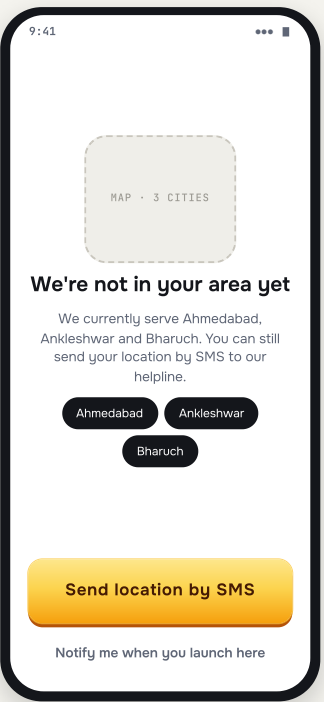

C10
Delete account
LANEFORMSCAFFOLD
Needs re-login within 5 min. Also a web deletion page.

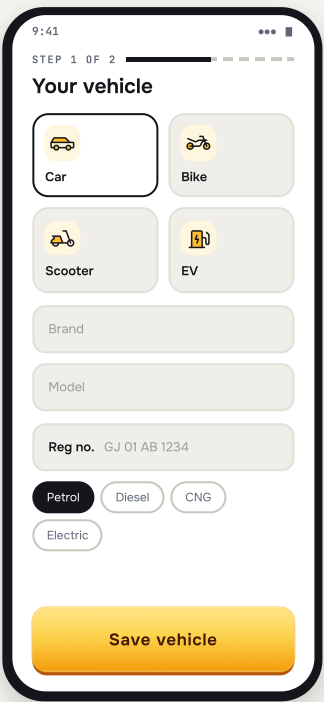

U1
Home
LANEMAPSCAFFOLD
Get Help = 64 dp Launch button. * = Glare mode. City chip = detected service area.

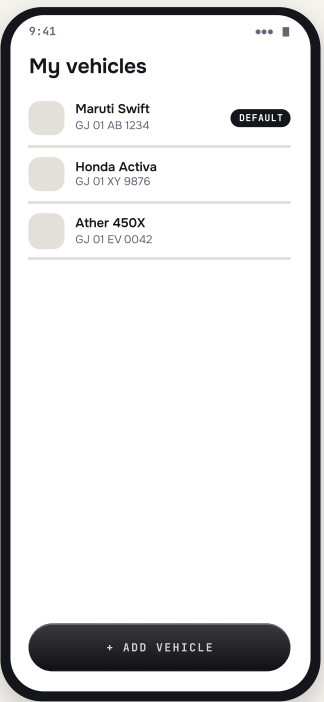

U1-SOS
SOS sheet
LANESHEET
1.5 s hold, Gradient Beam ring fills red. Opens SMS app pre-filled.

U1-Area
Outside service area
LANESTATUSSCAFFOLD
createBooking rejects pickups outside an active serviceAreas/{cityId}.

U2
Add vehicle
LANEFLOWSCAFFOLD
Reg no. validated (Indian + BH format).

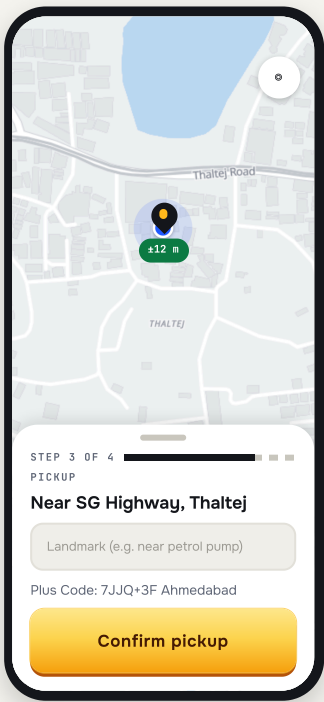

U3
My vehicles
LANELISTSCAFFOLD
Swipe to delete, tap to set default.

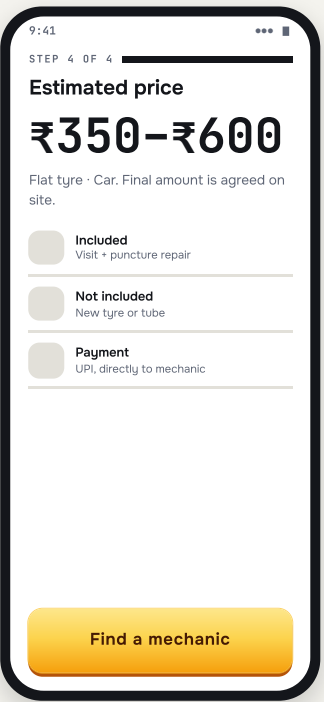

U4
Problem picker
LANEFLOWSCAFFOLD
Pictograms in assets/pictograms. Icon + word, never icon only.

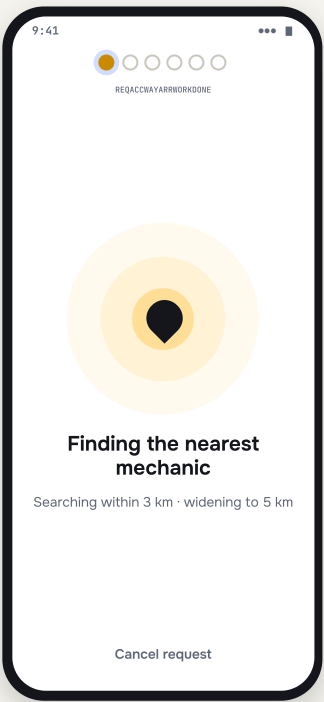

U5
Photos + details
LANEFLOWSCAFFOLD
Compress ≤ 500 KB, strip EXIF before upload.

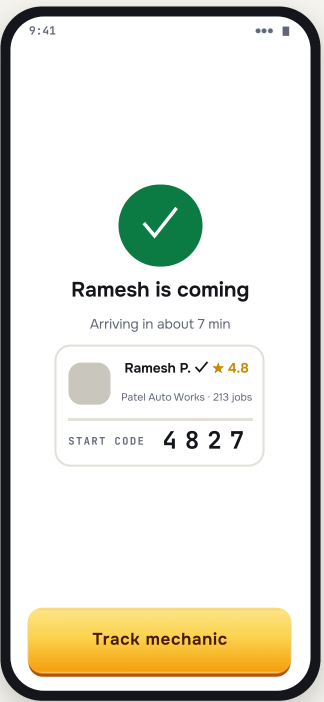

U6
Confirm location
LANEMAPSCAFFOLD
Drag map under fixed pin. Badge: green ≤20 m, amber ≤50 m.

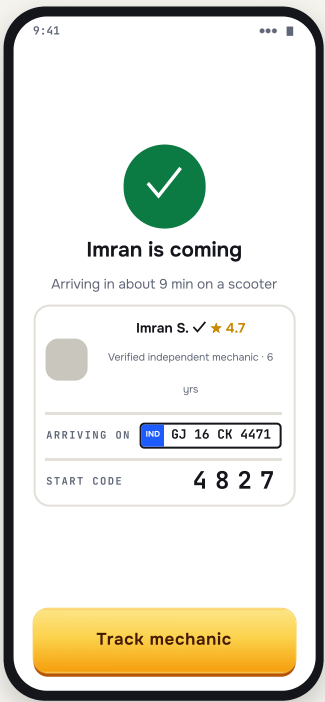

U7
Price estimate
LANEFLOWSCAFFOLD
Price computed by server from prices/collection.

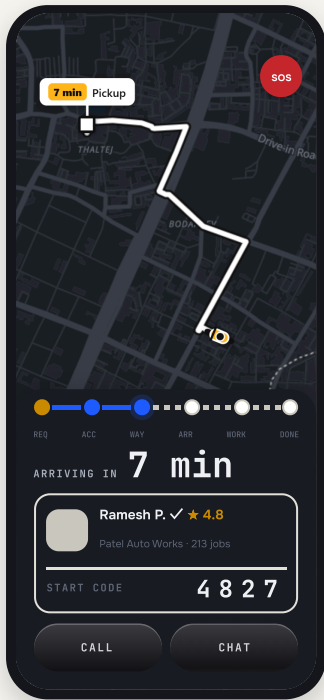

U8
Searching
LANESTATUSSCAFFOLD
BreathingPulse 10 s cycle. No spinner.

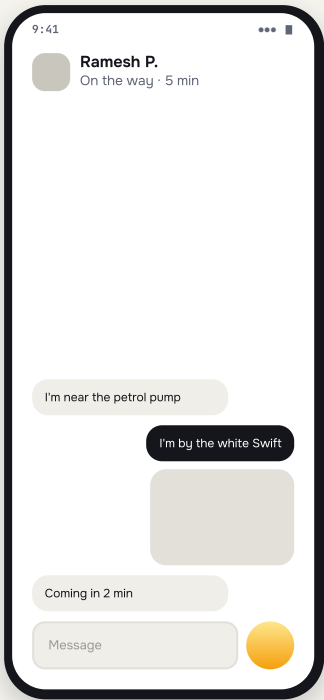

U9
Mechanic assigned
LANESTATUSSCAFFOLD
TrustPass slides up + success haptic.

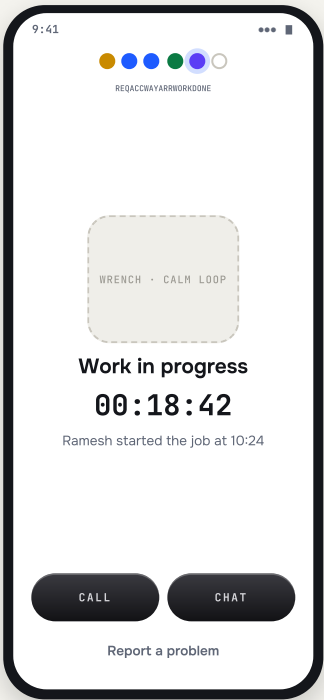

U9-Ind
Assigned (independent)
LANESTATUSSCAFFOLD
Independent variant: "Verified independent · N yrs" + travel-vehicle plate instead of shop name (PLAN \$10.0).

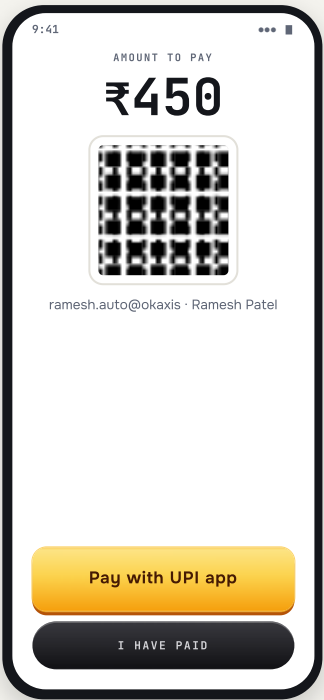

U10
Live tracking
LANEMAPSCAFFOLD
Marker glides between 5 s fixes. Tap code = fullscreen.

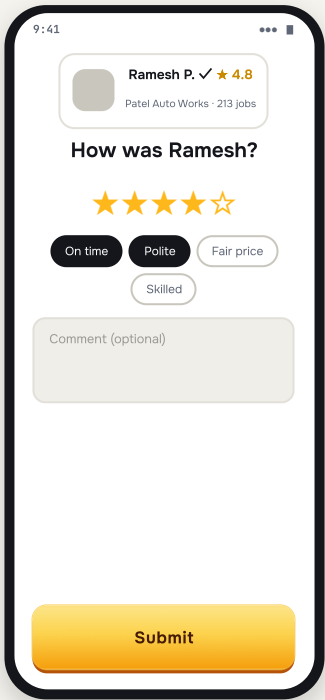

U11
Chat
LANELISTSCAFFOLD
Text ≤ 500 chars + photos. Only while booking is active.

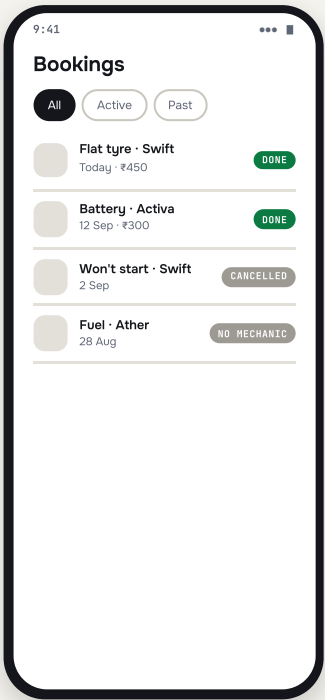

U12
Job in progress
LANESTATUSSCAFFOLD
Violet Working stop on the rail.

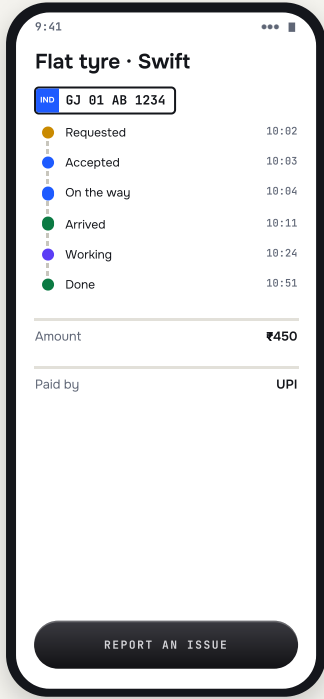

U13
Payment
LANEFLOWSCAFFOLD
Deep link upi://pay with amount. App never stores bank data.

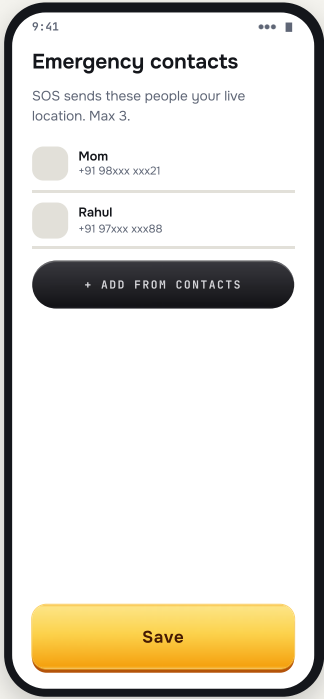

U14
Rate & review
LANEFLOWSCAFFOLD
Stars spring on select (success moment).

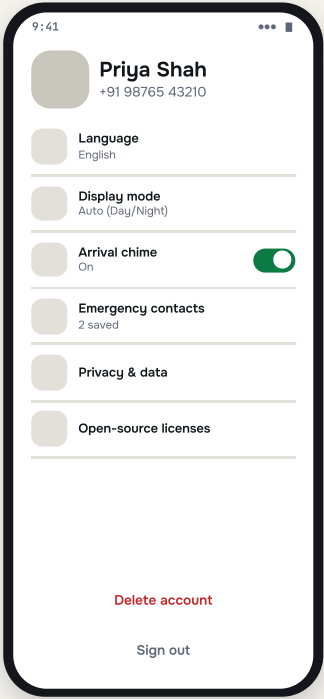

U15
Booking history
LANELISTSCAFFOLD
SignalBadge = colour + word.

U16
Booking detail
LANELISTSCAFFOLD
Vertical JourneyRail with timestamps.

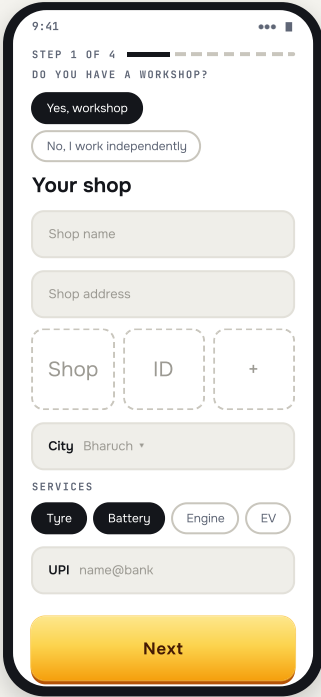

U17
Emergency contacts
LANEFORMSCAFFOLD
System contact picker, no READ_CONTACTS permission.

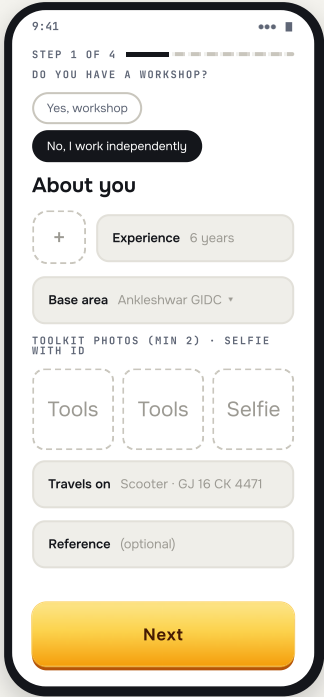

U18
Profile & settings
LANEFORMSCAFFOLD
Display mode: Auto / Day / Night / Glare.

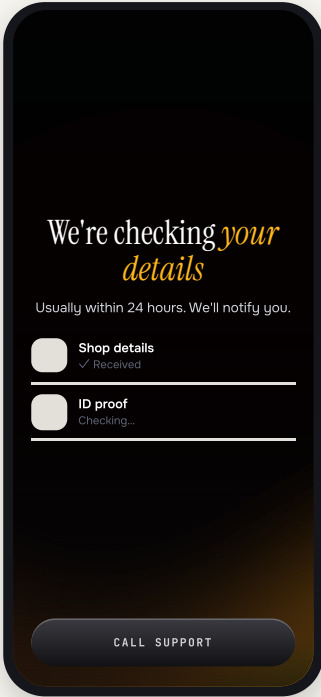

Mechanic app

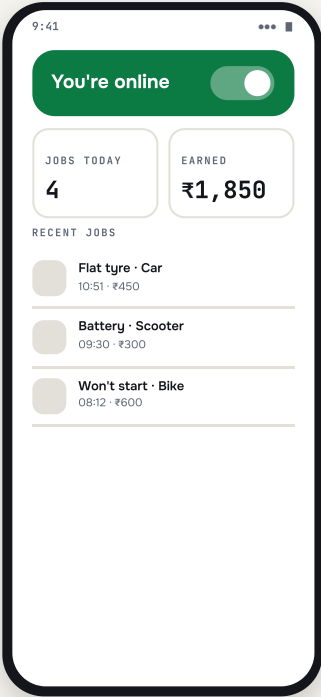

M1
Registration
LANEFLOWSCAFFOLD
Type choice first. Workshop path shown; independent → M1·Ind. ID proof → private KYC path (admin-only).

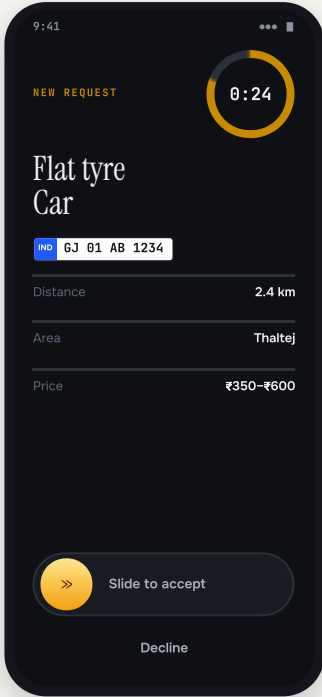

M1·Ind
Registration (independent)
LANEFLOWSCAFFOLD
Independent path (PLAN \$10.0): toolkit + selfie-with-ID + address proof; admin verification call before approval.

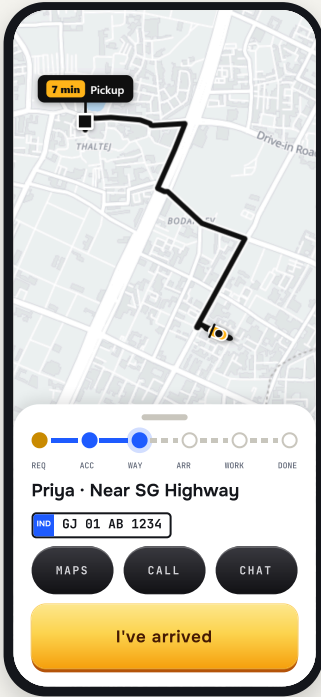

M2
Approval pending
LANESTATUSSCAFFOLD · 3D BG
ThreeUI background (static image) + dark scrim.

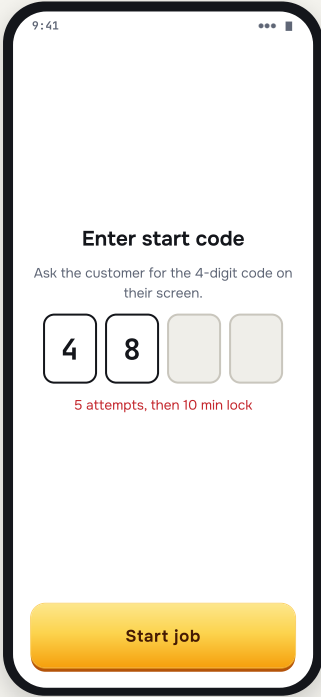

M3
Dashboard
LANELISTSCAFFOLD
Toggle 64 dp. Online = location every 60 s / 100 m.

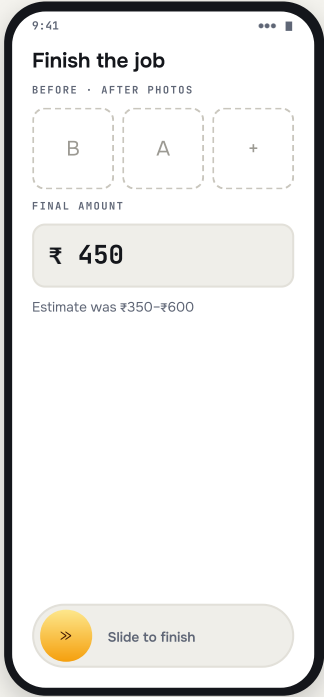

M4
Incoming offer
LANESTATUSSCAFFOLD (FULL SCREEN)
Exact address hidden until accept. Offer channel sound + heavy haptic ×2.

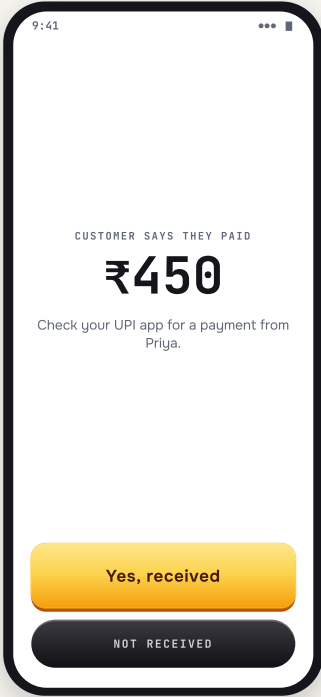

M5
Navigate
LANEMAPSCAFFOLD
Arrived button enabled within 100 m (server re-checks).

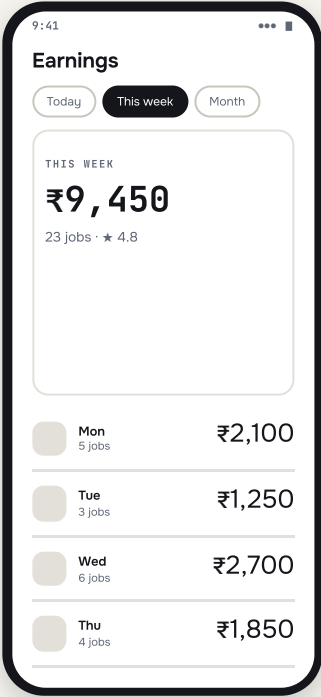

M6
Start code
LANEFLOWSCAFFOLD
verifyStartOtp callable. Never reads the code.

M7
Job complete
LANEFLOWSCAFFOLD
≥1 after photo required. Amount outside 0.5-3× needs a reason.

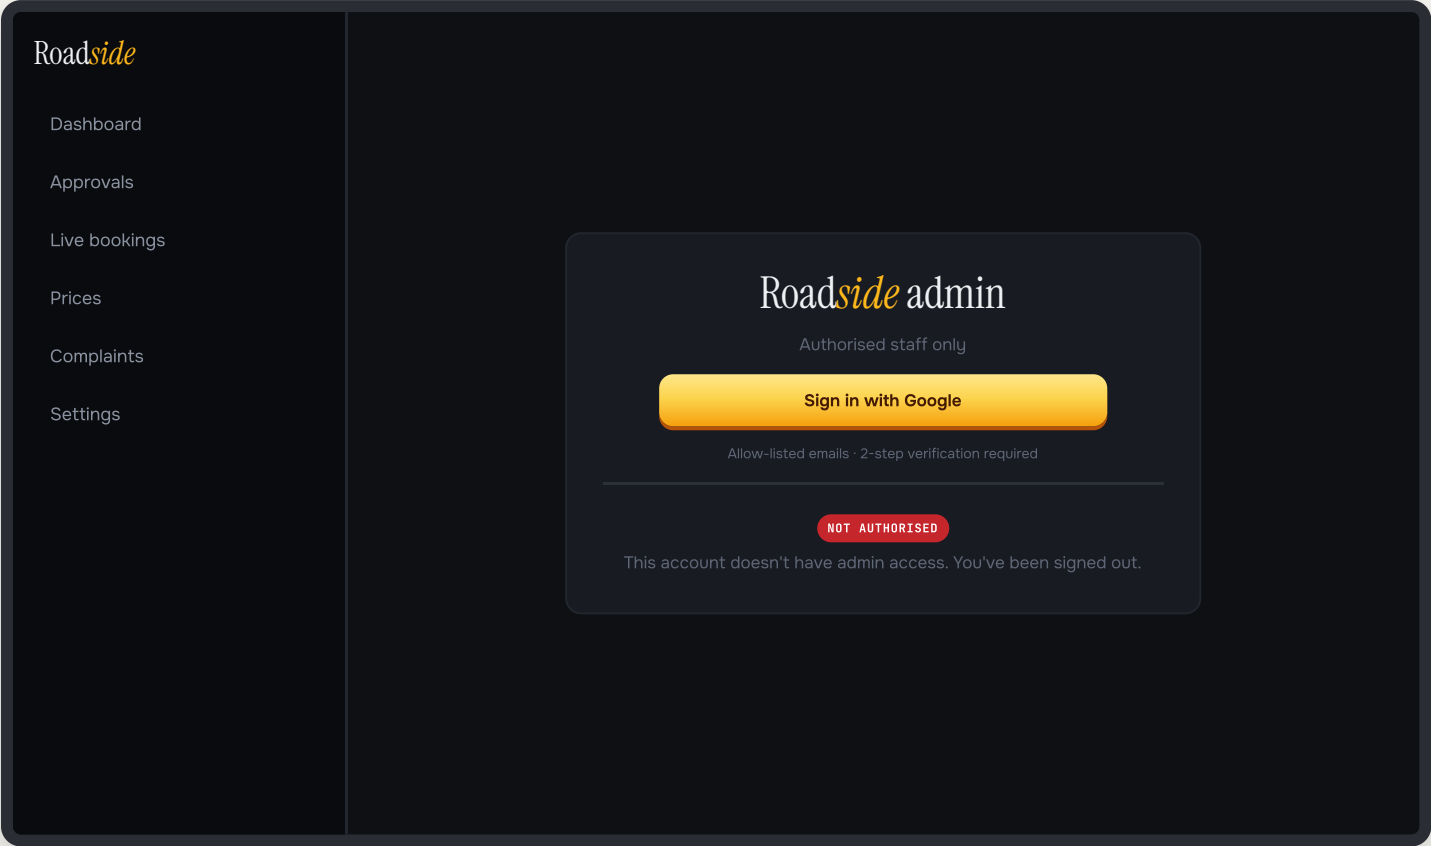

M8
Confirm payment
LANESTATUSSCAFFOLD
Not received → disputed + complaint.

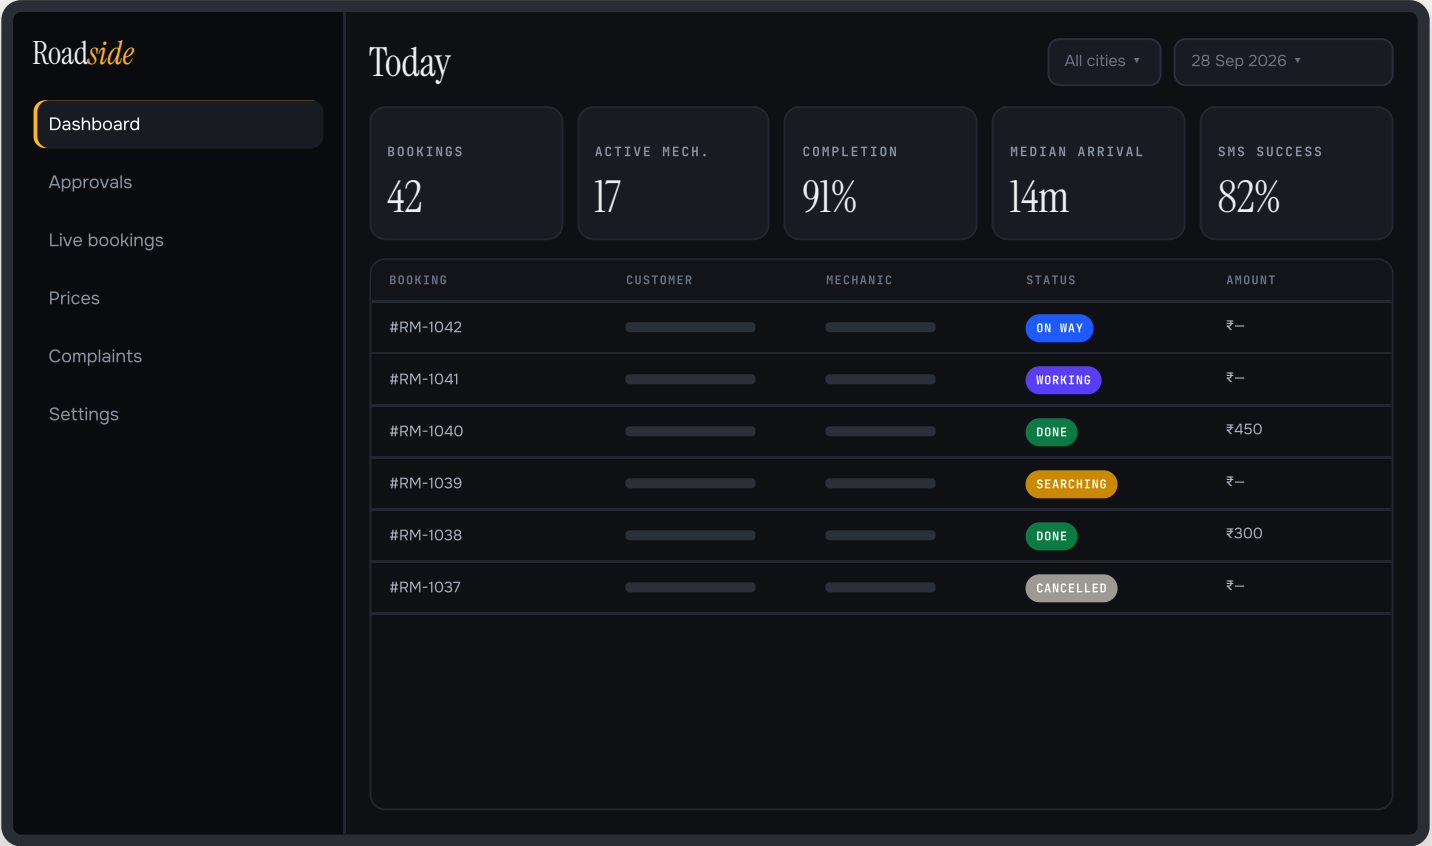

M9
Earnings & history
LANELISTSCAFFOLD
Numbers roll (LaneRollingNumber).

Admin panel (1/2)

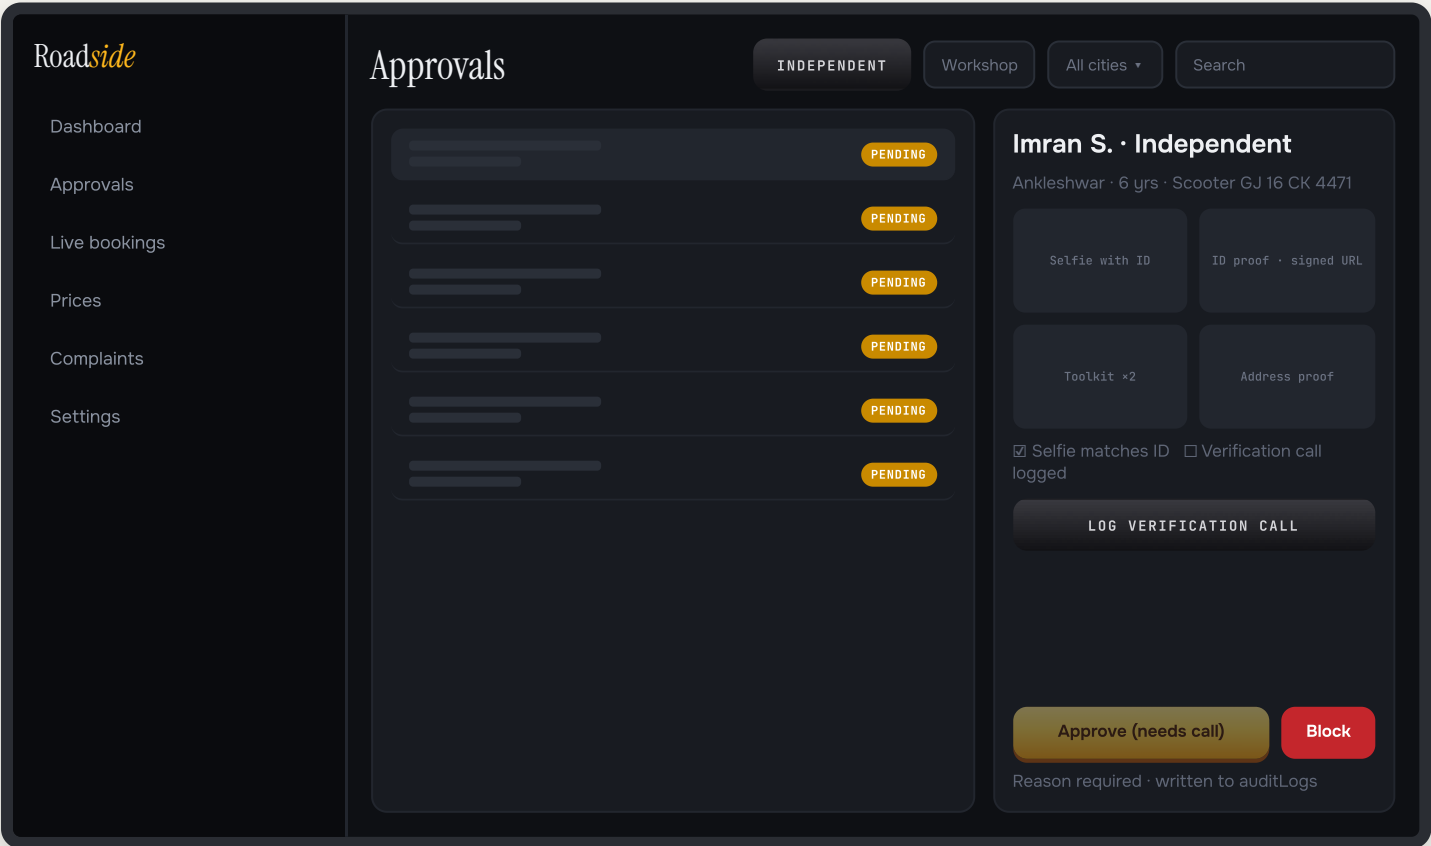

A0 Admin sign-in (admins only)

No phone login, no sign-up. beforeSignIn blocks emails not on the allow-list; the admin claim is granted only by tool/grant_admin (PLAN \$12.11).

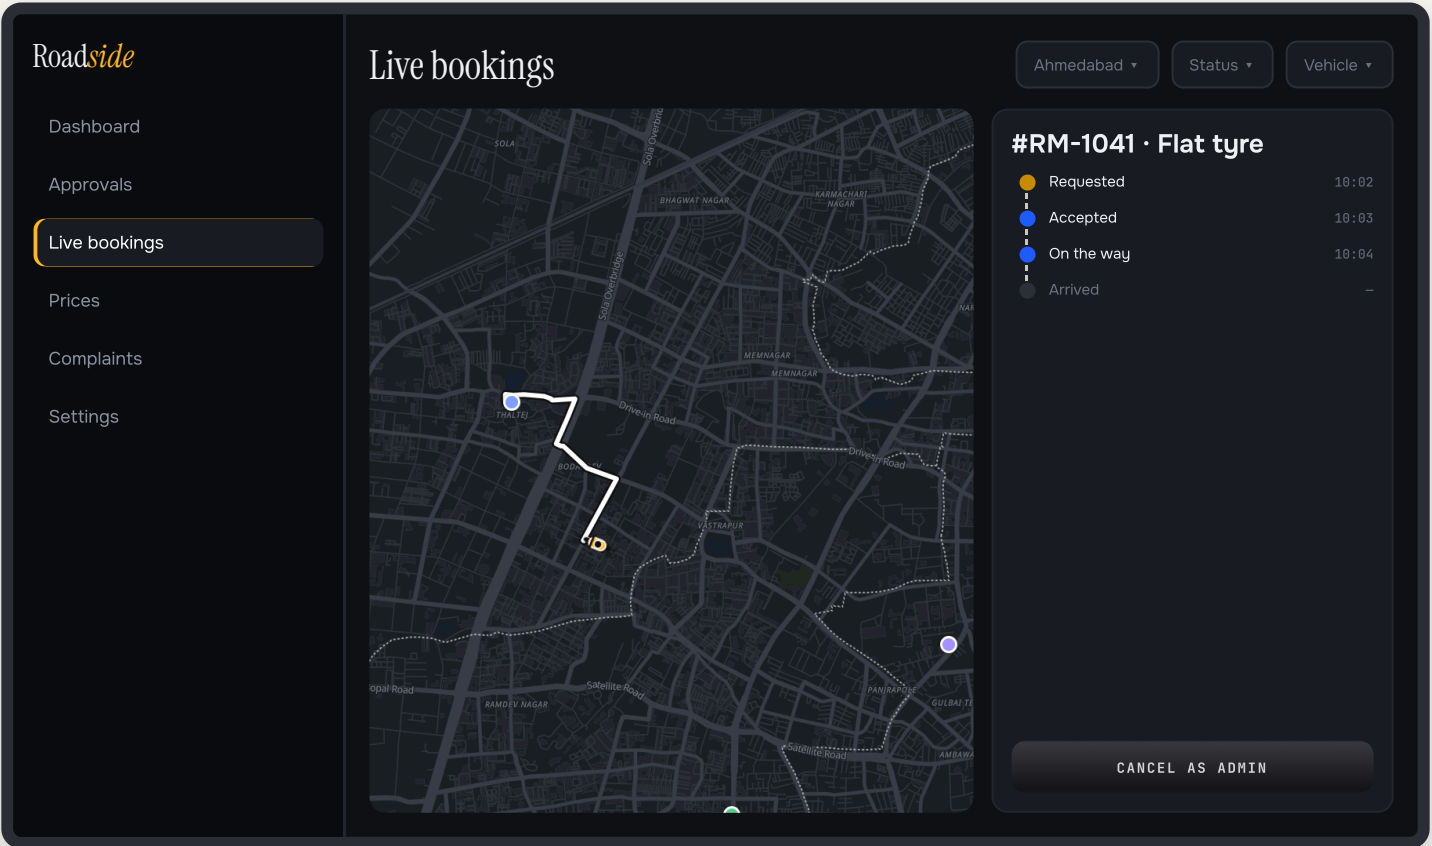

A1 Dashboard

StatCards use Instrument Serif numbers. Night palette by default.

A2 Mechanic approvals

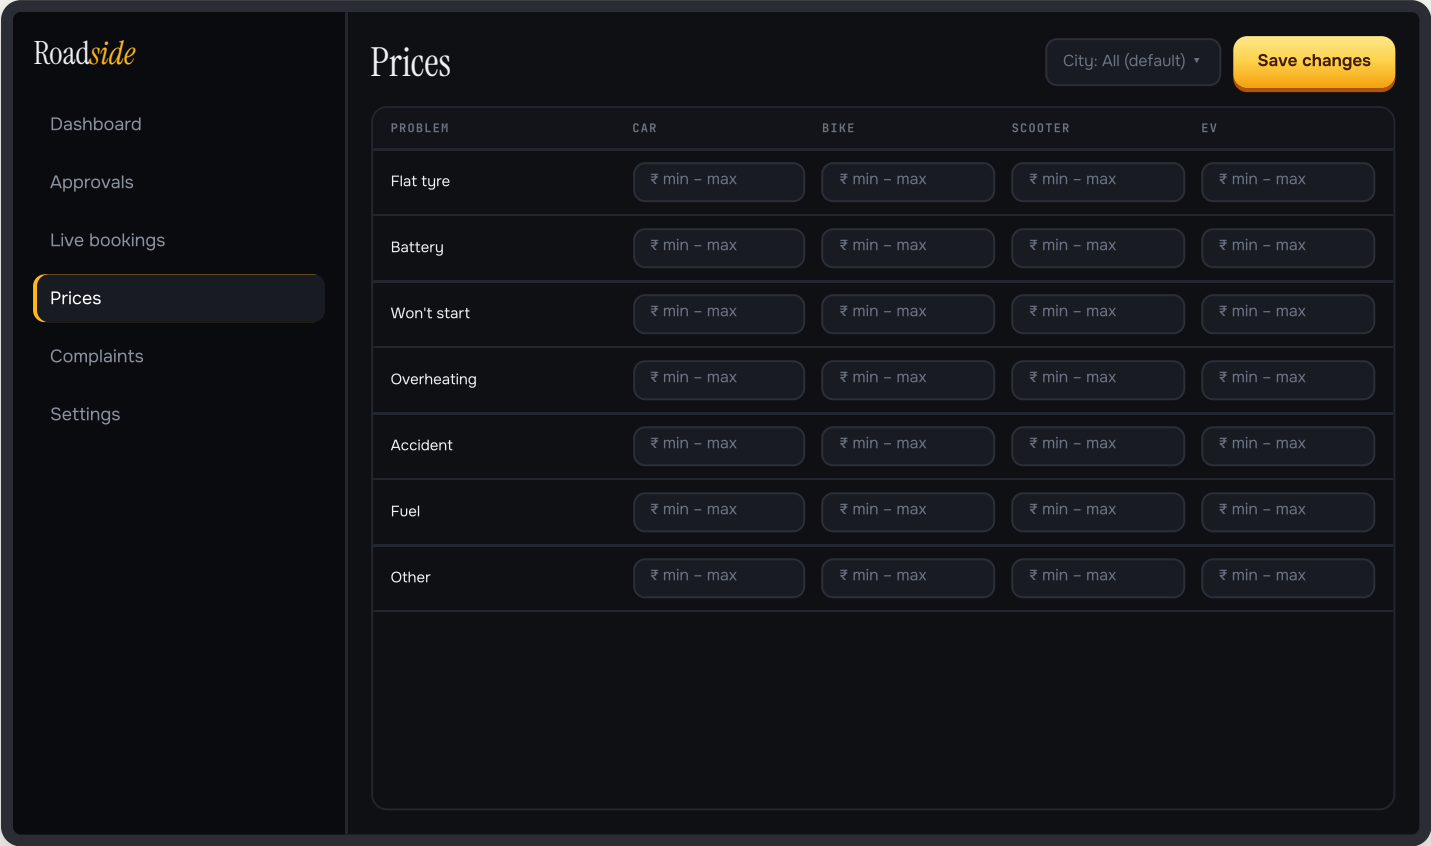

Type filter + per-type checklist (PLAN \$10.0). Independent: Approve disabled until selfie→ID and verification call are done. Docs via signed URLs.

A3 Live bookings

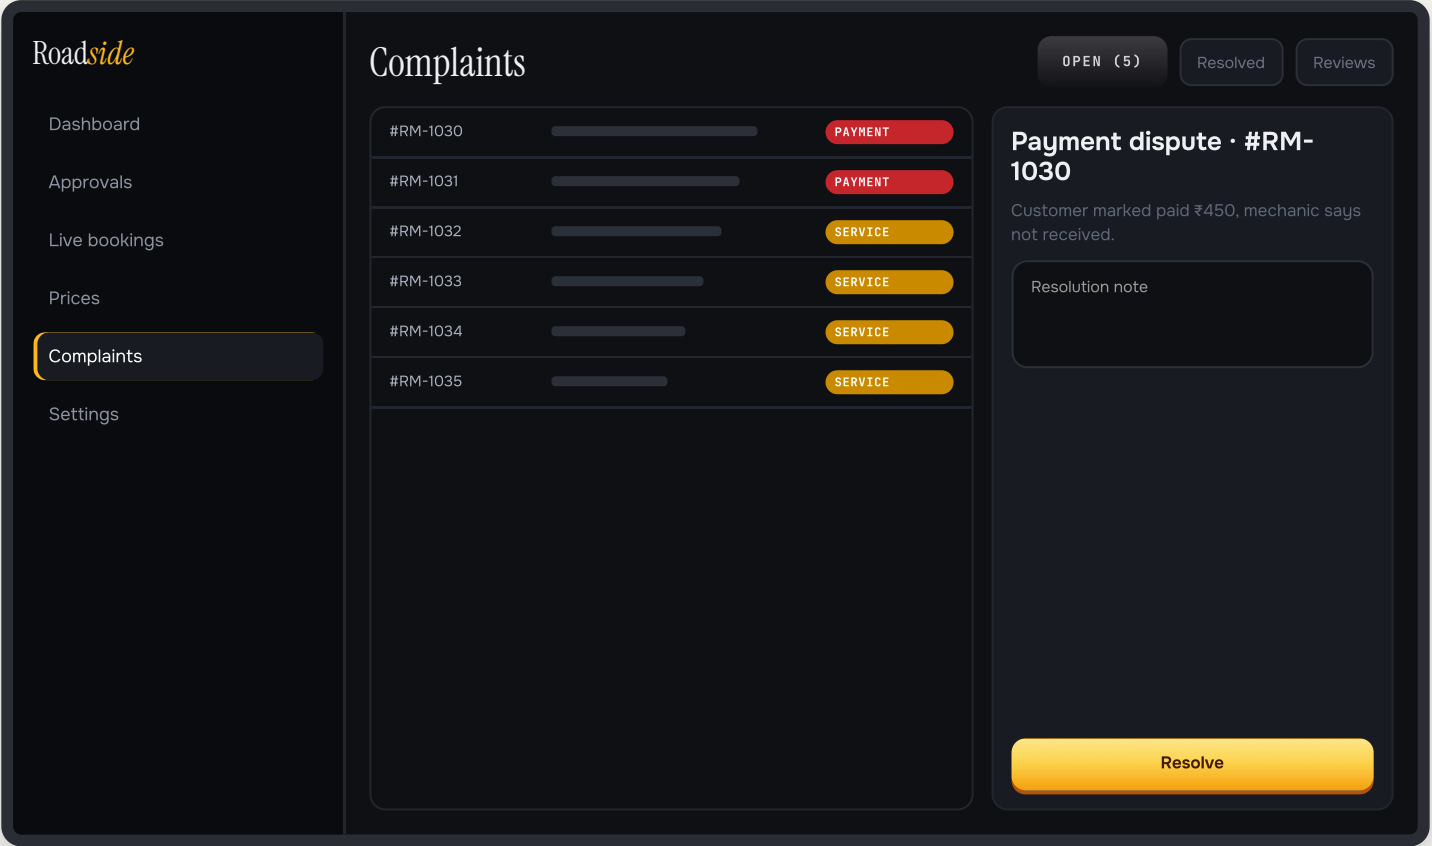

Only active bookings shown on the map.

Admin panel (2/2)

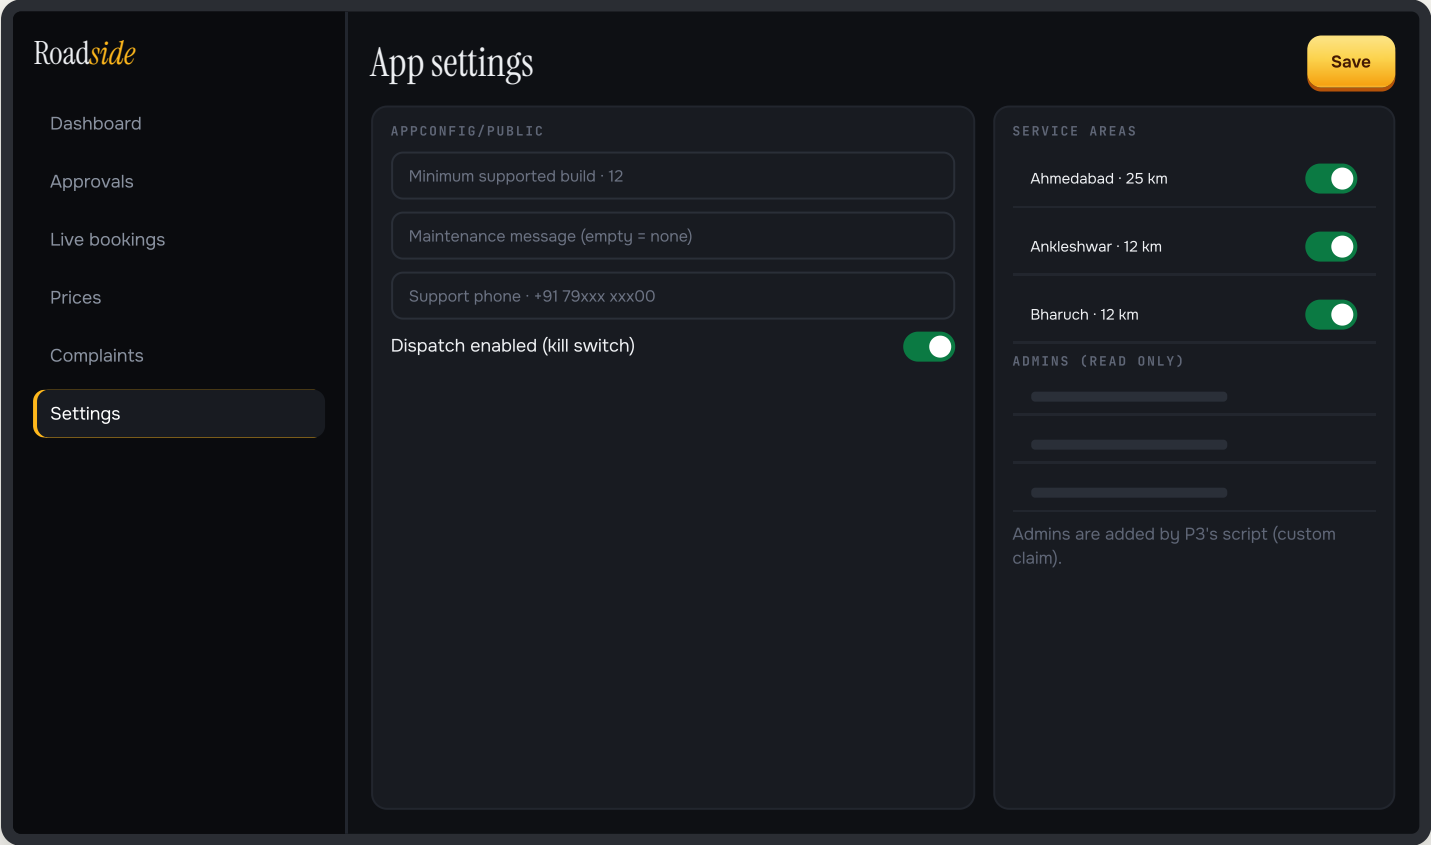

A4 Price editor

Validates min < max. Change logged in auditLogs.

A5 Complaints & reviews

Disputes come from disputePayment.

A6 Settings

Force update, pause service, switch each city on/off.
